

BRICK INSTRUCTIONS

STEP 1

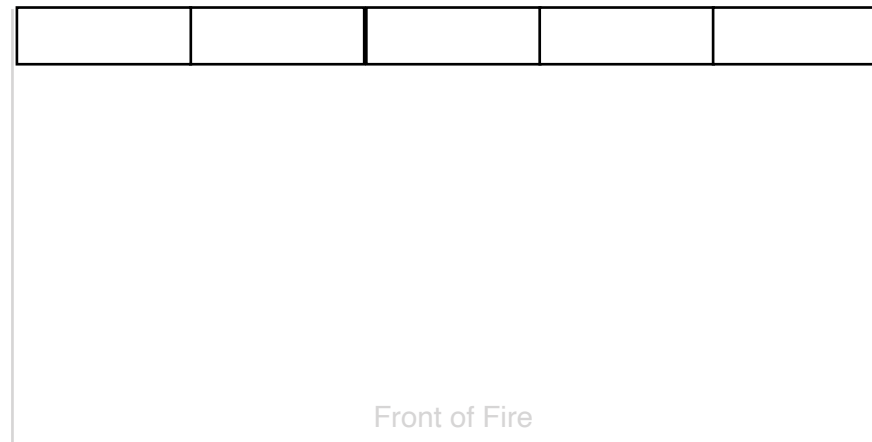

FIRST LEVEL BACK WALL

1. Gather the bricks needed for this layer
2. Stand a single layer of bricks on the back wall of the firebox

This step uses 5 full size bricks

TOP VIEW

STEP 2

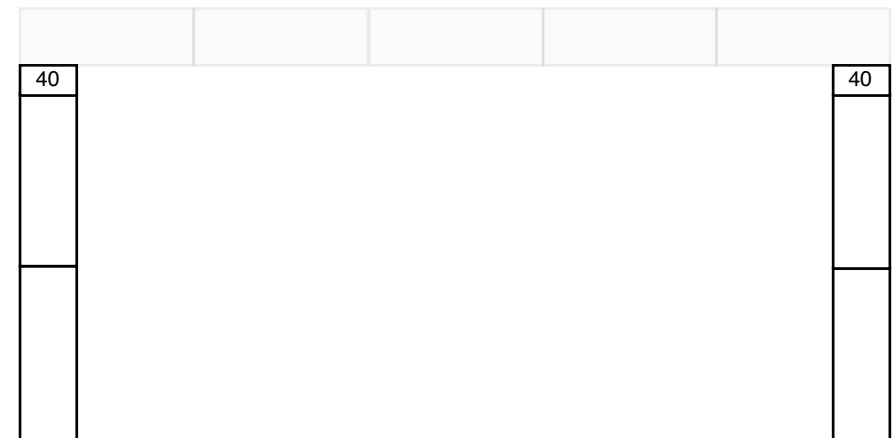

FIRST LEVEL SIDE WALLS

1. Gather the bricks needed for this layer
2. Stand a single layer of bricks on both side walls

This step uses these bricks

TOP VIEW

1. **Gather the bricks needed for this layer**
2. **Lay down a single layer of bricks to form the base**

This step uses these bricks

[illegible]

STEP 4

INSERT THE ASH GUARD

Tap the ash guard under the base layer. It can be done later, but is easier now, before adding weight from additional layers.

STEP 5

SECOND LEVEL LEFT AND RIGHT

1. Gather the bricks needed for this layer
2. Stand up a layer of bricks on both walls

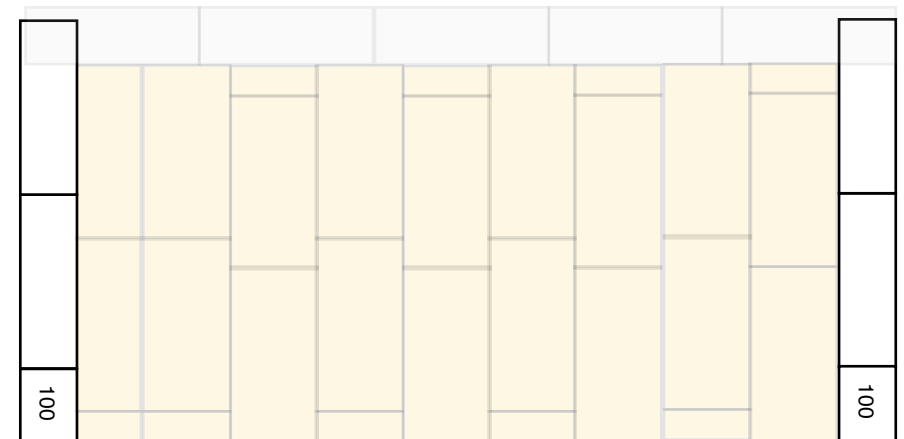

This step uses these bricks

Tip

This layer will have a gap at either the front or back. Flush the bricks to the front, matching the layer below, so that it looks really nice from the front. The little gap at the back does not matter.

STEP 6

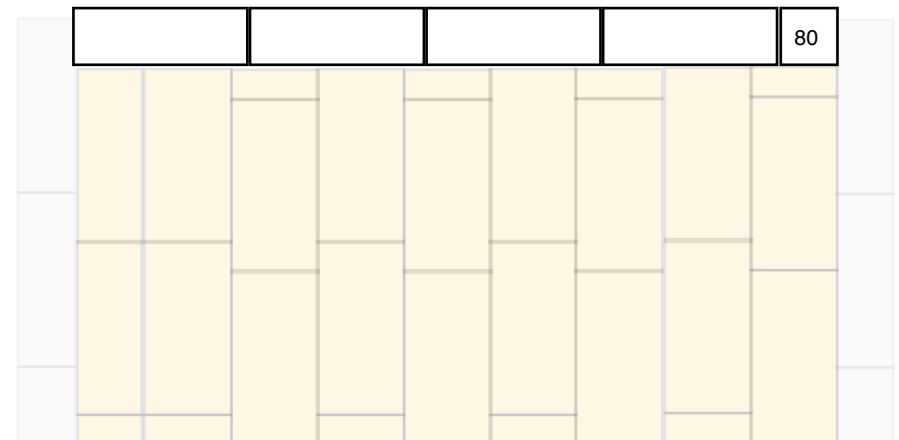

SECOND LEVEL IN THE BACK

1. Gather the bricks needed for this layer
2. Stand up a layer of bricks on the back wall

This step uses these bricks
